

The Home Builders' Association of Cobourg

About Us

We are a new organization brought together by several key goals. First and foremost, we are proud of our town and proud to provide an exciting array of new home choices to suit almost every need and lifestyle. But more than that, we want to encourage potential home-buyers from across southern Ontario to explore the wonderful lifestyle Cobourg has to offer.

Our homebuilders' association has another key goal. It is an opportunity to build partnerships within the industry and in the business community, with community organizations and with each level of government. We strongly believe that success is a team effort, that everything we do can be enhanced by working together. We believe, in short, that the whole can be greater than the sum of the parts, and that synergy is achieved by communicating effectively and with a united voice.

If you do business in the Cobourg area, consider joining HBAC today. As our organization grows, you'll be hearing a lot about how we can all make life better for those who choose to work, play, live, laugh, and love in the Town of Cobourg!

Our Mission

The Home Builders' Association of Cobourg is dedicated to building quality communities and quality homes that reflect the unique lifestyle Cobourg has to offer. We are also committed to building partnerships within the local business community, with all levels of government, and in the new home industry that create opportunities for growth, cooperation, and advancement.
